CONSUMPTION.

The early symptoms of this disease are a sense of weariness upon little exertion, and disposition to remain passive and idle; a peculiar sensitiveness of the effects of cold, and a shortness of breath upon moving quickly or ascending a hill or stairs, a slight hacking cough with or without expectoration, flying pains throughout the chest or back or under the shoulder-blades; the symptoms are worse towards or during the night; slight fever in the afternoon, cold feet and hands, and in many cases blue lividity of the lips and roots of the finger nails. The more advanced symptoms are wasting of flesh, diarrhœa, chills and fever, night sweats, expectoration of yellow pus from the ulcers or cavities in the lungs, with or without a depression of the chest, increasing weakness, and at last a closing up of the air passages of the lungs, causing strangulation or suffocation of the patient for want of power to expectorate the mucus from the lungs. Heretofore the treatment of consumption has been very unsatisfactory, both to physicians and their patients, but luckily, since the discovery of the Aerean system of practice, a few years ago, thousands of cases have been completely cured, where, had it not been for this system of practice, utter failure to combat the evils of the disease would have continued up to the present time. The system of Medicated Inhalation is the only means by which these diseases can be cured. By this means we are enabled to dissolve the hardened mucus in the lungs, ease the cough, facilitate expectoration, contract and heal ulcers and cavities after all hope of cure by ordinary methods is passed. CONSULTATION FREE. Those who desire to consult with me in regard to their cases had better call personally for an examination, but if impossible to do so, may write for a list of Questions and Medical Treatise. Address M. HILTON WILLIAMS, M. D., 275 North Main street, Los Angeles, Cal. Office hours from 10 a. m. to 4 p. m.; Sundays from 3 to 4 p. m. Professional visits before and after office hours. no19 d&w

W. N. DAVIS, M. D.,

M. C. P. S. O.

Graduate of Chicago Homœopathic College, Chicago, Member of College of Physicians and Surgeons of Ontario, having devoted several years to the special treatment of diseases of the nose, throat, lung, liver, and kidneys, as well as all chronic diseases, will continue to pay special attention to the same.

Consumption

And bronchitis treated by the aid of medicated inhalations, a new apparatus being employed by which means the inhalation can be taken during sleep, which quiets all unproductive cough. A clearing-out cough usually occurs in the morning. This gives nature a chance to heal the diseased lungs and lessens the tendency to hemorrhage. Constitutional medicines are employed in all cases.

Catarrh

Causes a great deal of inconvenience to the sufferer as well as to friends who are constantly in his presence, by the disposition to clear the head. This disease is usually located in the back part of the nose, and can be cured by our mode of treatment in every case if not too far advanced.

WASHINGTON.

Senate Debate on the Foreign Labor Problem.

MAIL SUBSIDIES BEFORE THE HOUSE.

How Congress Will Care for the Nation's Wards—New Postal Provisions—National Gleanings.

Associated Press Dispatches to The Times.

WASHINGTON, Feb. 13.—The Texas Pacific Land Forfeiture bill, pending the special order, was placed before the Senate.

Mr. Blair asked unanimous consent to take up the anti-Foreign Contract Labor bill.

Mr. Van Wyck declined to yield. Mr Van Wyck said the Senate and country understood the nature of the bill. He did not wish to put it in further peril. It had been in peril already. It had been displaced by taking up another bill whose principal feature made it impossible to get the concurrence of the other House. The principal features of this forfeiture bill were so plain, that, if he (Van Wyck) might be allowed, he would say that they had been passed by the House of Representatives almost unanimously.

The Chair said it was not in order to make reference to proceedings in the House of Representatives.

Mr. Van Wyck said he merely wanted to get the idea in some way before the Senate. Some things, Mr. Van Wyck said, were very remarkable. The very moment a land grant forfeiture loomed up in this body, terror seized them in some directions. The bill was demanded by the unanimous consent of the American people. There was at least unanimity there, whether there had or had not been unanimity in other places which he had not been permitted to refer to. Soon the bill would be met by appropriation bills, and then ingenious gentlemen would, by long speeches, be able to prevent its consideration. Only one of the forfeiture bills had been able to get through Congress, and that was the bill that the railroad company itself had been anxious to get passed. Had the Senators forgotten the celebrated letters written by the celebrated historian, Huntington, of the Central Pacific, as to what was done about the Texas Pacific when he was lobbying here? We should be admonished by that history to furnish no opportunity for any other historian like Huntington as possibly Huntington himself to duplicate or reproduce similar historical chapters. Mr. Van Wyck wished to say this much now, because he did not know whether owing to "rules" and processes of obstruction he would have a chance to say any thing more on the subject.

Mr. Blair moved that the Senate proceed to the consideration of the labor bill.

Mr. Van Wyck asked the Chair if this would not again displace the Texas Pacific forfeiture bill and relegate it to the calendar.

The Chair said it would.

Mr. Van Wyck—Then I want that distinctly understood.

Mr. Van Wyck called for the yeas and nays on Mr. Blair's motion and it was agreed to—yeas, 30; nays, 19.

The Labor bill was therefore taken up and its consideration proceeded.

The detailed vote is as follows:

YEAS—Aldrich, Allison, Blair, Bower, Call, Conger, Cullom, Dawes, Dolph, Edmunds, Frye, Hale, Harrison, Hawley, Hoar, Ingalls, Jackson, Lapham, Manderson, Mitchell, Morgan, Morrill, Palmer, Pike, Platt, Pugh, Sawyer, Sewell, Sherman and Wilson—30.

NAYS—Bayard, Beck, Butler, Cameron, of Wisconsin; Cockrell, Coke, Fair, Garland, Hampton, Hill, Jonas, Jones, of Florida; Maxey, Miller, of California; Slater, Vance, Van Wyck, Vest and Williams—19.

The Labor bill is the House bill and is entitled "An act to prohibit the importation and immigration of foreigners and aliens under contract or agreement to perform labor in the United States, its Territories and the District of Columbia." Considerable debate arose on the bill.

Mr. Hawley thought the bill in contravention of national rights.

Mr. McPherson thought it would prevent people from coming here even as colonists.

Mr. Blair said the wages of the working classes should be protected from the effects of imported gangs of laborers. In the course of his remarks Mr. Blair alluded to the recent disturbances in the Hocking Valley, which were attributed to the class of people this bill would exclude. These disturbances, he said, had already resulted in the loss of $4,000,000.

Mr. Ingalls said he sympathized with Hawley in his regard for natural rights, but the people were confronted with a portentous exigency. We should soon be called on to decide whether every man, woman and child on the face of the earth, no matter in what condition of physical or intellectual development or moral standing, has a natural right to come to the United States, and do and act as he pleased, to the detriment of those already here. There were at this present moment, Mr. Ingalls said, 500,000 wage workers in this country who were idle, but who were willing to labor. With their dependent women and children that would make 3,000,000 people who, amid the extraordinary rigors of an unusually inclement winter, were suffering for the necessaries of life. They needed shelter. They needed clothing that might be manufactured from the surplus production of our factories. They were in need of the corn that was to-day being used for fuel on the plains of Nebraska, and wheat that was being fed to hogs in the valleys of Kansas. The question was, had we a right to protect our own citizens against dangerous and detrimental competition. The nations of the earth under the doctrine of "natural rights" had been dumping their paupers and criminals and dangerous and uneasy classes upon us until, in Ingalls' opinion, in view of recent events in New York, Cincinnati and Chicago, the time had come to consider whether we might not be called on to modify in some degree our views as to the significance of the declaration of American independence and the universal rights of man.

Mr. Bayard did not see at present a direct application of Mr. Ingalls's remarks. They were directed against the communistic forces which proposed to array numbers against property. It was not, however, by bills of this character that such forces were to be met, but by measures amending our criminal law so as to punish unrelentingly the foes to human society whose doings and threatenings had been adverted to by Mr. Ingalls. The provisions of the bill were impracticable.

Mr. Sherman defended the bill. It was directed not against freemen, but against men who were not their own masters, who did not come as free individuals, but were imported in a body at a pre-arranged price to compete with free and intelligent American workingmen. It was not a race discrimination. He had voted against the Chinese bill and would have opposed this bill, if it were a discrimination on account of race.

After further debate the Senate without action adjourned.

House of Representatives.

WASHINGTON, Feb. 13.—The House met at 10 o'clock in continuation of Thursday's session.

On motion of Mr. Payson the Senate amendments were concurred in to the House bill to prevent the unlawful occupation of public lands.

The House, on motion of Mr. Thompson, passed the bill amending the Pacific Railroad Act so as to authorize the construction of road from Sioux City to Granger, Wyoming.

On motion of Mr. Hill the Senate bill passed with the amendment, amending sections 2474 and 2475 of the Revised Statutes relative to the Yellowstone National Park.

On motion of Mr. Willis it was ordered that at 10 o'clock to-night the House shall take a recess until 10 o'clock to-morrow.

The House then went into Committee of the Whole, with Mr. Springer in the chair, on the Postoffice Appropriation bill, the pending question being on the point of order raised by Mr. Holman against a paragraph allowing additional compensation to American steamships for carrying the ocean mails.

The Speaker overruled the point of order.

Mr. Holman appealed from the decision of the chair, but the committee, by a vote of 130 to 45, sustained the ruling.

Mr. Holman moved to strike out the amendment paragraph, and to insert "appropriating $425,000 for the transportation of foreign mails, including railway transit across the Isthmus of Panama, and re-enacting for one year from July next, sections 3976 and 4203 of the Revised Statues." The provision, said Mr. Holman, contained in the bill proposed, is a direct subsidy to vessels whether they carried the mail or not. If the Government entered into a contract with the Pacific Mail Steamship Company, that powerful corporation which had been pressing this measure with such industry, it would receive $143,000, where it now received $21,000, and it would receive that whether it carried the mail or not. It was a naked subsidy. No member who had been present on this floor some years ago, and witnessed the memorable scene which occurred in reference to the Pacific Mail subsidy would ever wish to witness another such scene. Men who had come in here with untarnished reputations had, under the baneful principles of subsidies left here clothed with dishonor and disgrace, never to return.

Mr. Mills inquired what right men had to put the hand of the Government into the pockets of laboring people in order to build up the business of John Roach? For in this bill John Roach was "the nigger in the woodpile." Why should the Government go down on its knees to John Roach and give him $600,000 for carrying the mails in American bottoms when foreign bottoms were carrying them for $500,000. It was a bad start for the Democratic administration, just once more brought into confidence and affection of the American people and in a few days before the President-elect would take the oath of office and promise great reform to the country, that Congress should go down on its knees to John Roach as a prelude to that entertainment.

Mr. Money regretted that the gentleman from Indiana (Holman) had seen fit to unfold the sorry spectacle of the Pacific Mail subsidy and had attempted to stay a good measure here by an epithet. He denominated the measure as a "subsidy." If it was a subsidy to pay ocean steamships, owned by American citizens, reasonable compensation, then it was a subsidy to pay steamers reasonable compensation for carrying mails along the coast. He was not to be intimidated from the discharge of duty by any parade of disputable jobs in the past and he would not be frightened from the discharge of that duty by any cry of subsidy. The plain question presented was whether or not the government would pay American citizens reasonable compensation for carrying the mails.

Mr. Warner of Ohio, supported Holman's motion and objected to the provision of the bill as being a departure from the Democratic doctrine that a subsidy should never be voted.

Hewitt, of New York, said that the question presented was simply this: "Did the people want to have the mails carried in American ships or not?" If they did then they must pay a reasonable compensation.

Mr. Bayne expressed surprise that the Democratic party should start out in this way and inaugurate the Democratic assumption of the control of this government by granting subsidies. No man could characterize this provision by any other name. It was paying more for a service done more than an equivalent for that service and this was a gift on the part of the government. Who was to be benefited by it? Largely, the Pacific Mail Steamship Company. Last year that company had earnings amounting to $4,780,000 and net profits of $1,293,000, and yet if the provision of this bill was agreed to, the government would pay that company $312,000 for rendering a service which it now rendered for $21,000, and yet the gentlemen said this was not a subsidy. He found among the directors of the company Jay Gould, Russell Sage, Sydney Dillon and C. P. Huntington, and that was the influence that lay at the back of this scheme.

Mr. Holman modified his motion so as to move merely to strike out the provision without the insertion of the clause reenacting sections 3976 and 4203, of the Revised Statutes.

The motion was agreed to—105 to 97—amid applause on the Democratic side.

Mr. Horr gave notice that he would demand the yeas and nays.

On motion of Mr. Bingham, an amendment was adopted providing that the rate on drop letters, including delivery at the letter-carrier office, shall be two cents per ounce.

The committee rose and reported the bill to the House, and the previous question having been ordered on the bill, the House took a recess until eight this evening, the session for the consideration of pension bills.

GENERAL WASHINGTON NEWS.

How the Government Will Deal with Its Wards.

WASHINGTON, Feb. 13.—The Indian appropriation bill, as reported in the Senate, increases the House bill $152,000. The committee has struck out all provisions for the payment of private claims growing out of Indian depredations, but has substituted a general provision requiring the Secretary of the Interior to report at the next session all claims of this nature, together with such information regarding them as may have been gathered by the agents of the Department. The bill contains new provisions, as follows: To supply food and other necessities of life in cases of distress among Indians not having a treaty, arising from emergencies not foreseen or otherwise provided for. A new provision is inserted for the establishment of a school in Colorado for Utes. Ten thousand dollars is appropriated for the construction of an Indian school at Albuquerque. The feature of the House bill is the clause prohibiting under heavy penalties, the sale of firearms to Indians. That authorizing the President to open negotiations with the Creeks, Seminoles and Cherokees for the purpose of opening up and settling the Oklahoma country, and that which subjects Indians charged with the commission of crimes against person or property to the laws of the territory where the act is alleged to have been committed, are stricken out.

THE YELLOWSTONE PARK.

The bill relative to jurisdiction over the Yellowstone Park, which passed the House to-day, is one introduced in the Senate by Senator Vest last session. An amendment, providing that jurisdiction over the park should be transferred from Montana to Wyoming was offered by Delegate Post after the bill passed the Senate and was incorporated in it as it passed the House to-day.

To Shorten the Union Pacific.

WASHINGTON, Feb. 13.—A bill passed the House this afternoon of a good deal of interest. It amends the Union Pacific act so as to allow the construction of a road from Sioux City westwardly via the Niobrara Valley to Granger, Wyoming, on on the Union Pacific, west of the one hundredth meridian. The object of this is to cut off the bend made in the eastern portion of the Union Pacific, and will, it is said, shorten the distance from Chicago to San Francisco 250 miles. The bill has not yet passed the Senate, but probably will.

A Girl Buried Alive.

SAN FRANCISCO, Feb. 13.—The Chronicle's special from Springfield, West Virginia, says: Mary Cox took an overdose of morphine and her death was announced a few hours afterwards. Two days later the body was buried. At the funeral a lady insisted that Miss Cox was not dead and begged that a physician might be sent for. That night the dogs of a man living near the graveyard stationed themselves near the tomb and kept up a persistent howling. The next day the grave was opened and it was found that the girl had been buried alive. The lining was torn from the sides of the coffin and the pillow was in shreds. Her hands and arms were torn and bleeding, her lips bitten through and handfuls of hair were torn from her head. The girl had come to life and made a fearful struggle to escape.

The Rescued Infants.

SAN FRANCISCO, Feb. 13.—The applications of Nathaniel Hunter, agent of the Society for the Prevention of Cruelty to Children, for letters of guardianship of the white babies recently taken from Chinese to whom they had been sold, came up before Judge Coffey of the Probate Court this morning. Mr. Hunter has made eleven applications covering the cases of all the white children thus far recovered from Chinese. There will be a contest in two cases. The case of the boys was set for hearing next Thursday. Judge Coffey granted Mr. Hunter's application for the guardianship of the five girls, in which cases there is no contest.

Verdict Against a Railroad.

CLEVELAND, O., Feb. 13.—Mrs. Mary M. Tuttle, of Ann Arbor, Michigan, started for Cleveland February 10, 1883, arrived at Toledo and took the New York and Chicago limited express on the Lake Shore road without having purchased a ticket. The rule was that passengers should have tickets. When the train got to Sandusky she bought a ticket to Cleveland. The conductor informed her that she should have purchased a ticket from Toledo to Cleveland and put her off the train. When she got here she entered suit. To-day the jury awarded her $2500.

Judge Bradley Wishes to Retire.

SAN FRANCISCO, Feb. 13.—The Bulletin's New York special says: A gentleman, just returned from a visit to Justice Bradley of the Supreme Court, stated that Bradley had signified a wish to retire, as in the event of retirement he was elegible to the pension which attaches to his judgeship. Had Blaine been elected Bradley would have held on till after the 4th of March.

A Victory for Woman's Rights.

AUSTIN, Tex., Feb. 13.—The Legislature to-day enacted a law making it compulsory on the heads of all departments to give at least one-half the clerical positions in their respective offices to females. The matter has excited extraordinary interest, and is regarded as a victory for the woman's rights party.

The Oregon Deadlock.

PORTLAND, Or., Feb. 13.—The Senatorial ballot is unchanged, except that the Democrats voted for Robert Miller, of Marion county. The Republicans who have been voting against Hirsch will probably hold an informal meeting late to-night and the outcome of the present uncertainty hangs upon its result.

METEMNEH TO BE ASSAULTED AT ONCE.

A Reconoitering Party Demoralized in a Brush with Arabs—Notes from the Nile.

Associated Press Dispatches to The Times.

LONDON, Feb. 13.—The Conservative papers charge the Government with suppressing General Gordon's diary and a letter in which Gordon stated that he sent Colonel Stewart away from Khartoum in order to save his (Stewart's) life, intending himself to meet death at Khartoum, as he knew no help could reach there in time to rescue him. When Parliament assembles, the production of the dispatches to the Government in regard to the Soudan campaign will be demanded.

COLONIAL AID NOT WANTED.

Hartington, Secretary of State for War, advises the acceptance of the offers from Canada and New South Wales to send troops to the Soudan, but the War Office authorities oppose the proposition. The question will be referred to the Cabinet for decision. Owing to the opposition of the Duke of Cambridge, Commander-in chief, and other officers, it is probable that the Ministers will decide to inform Canada and New South Wales that their assistance is not needed.

RETURNING HOME.

LONDON, Feb. 13.—The Canadian voyageurs with the Nile expedition left Alexandria to-day in the steamer Poonah, which will convey them direct to Queenstown. There they will embark in the steamer Hanoverian for home, and will reach Quebec the first week in March. A dispatch from Gen. Wolseley compliments the voyageurs for their services.

METEMNEH TO BE ATTACKED.

KORTI, Feb. 13.—It is expected that an attack will be made upon Metemneh Sunday. It is reported that a number of the Mahdi's troops have left Khartoum for Kassala for the purpose of meeting the Italian advance.

FROM SUAKIM.

A Reconnoitering Party Have a Brush with Arabs.

SUAKIM, Feb. 13.—Small parties of hostile Arabs have reappeared to menace the garrison. A spy returned from Hesheim, the place where the reconnoitering party of Hussars and Egyptians was attacked on the 3d inst. The Hussars got as far as Handoub without opposition, but having on their way out burned a native village without reason, they were attacked on their return at Hesheim, which is about three miles from Handoub. The attacking party lay in ambush and the Arab fire was so terrible that the Hussars could not face it and saved themselves from annihilation by retreating at full gallop. Eight Hussars and three Egyptians were lost. Colonel Heeman, commanding at Suakim, in reporting the incident stated that the officer in command of the Hussars had exceeded his authority in ordering the burning of the Arab village. Spies at once were sent out to ascertain the fate of the missing troopers. A spy who returned could learn nothing, but he found in the desert, near the fight, several articles of clothing which evidently belonged to the missing men. The spy brought these articles to Suakim. All were pierced as if by spears. The spy reports that he found the enemy encamped at Hesheim.

A KORTI DISPATCH.

LONDON, Feb. 13.—A dispatch from Korti says Colonel Sir Riedvers Buller will probably attack Metemneh next S day. The rebels are taking no aggres steps.

GUARDING AGAINST DYNAMITE.

Stringent Rules for Protecting the House of Commons.

LONDON, Feb. 13.—The recent dynamite explosion in the House of Commons has demonstrated the fact that under the existing rules governing the admission of strangers to the galleries and lobbies of the House of Parliament it will be an easy matter for dynamiters to convey explosives into the buildings during the session of Parliament and cause the death of many of its members. The government has decided to adopt more stringent rules regulating the admission of visitors. Members of Parliament in future will not be allowed to introduce strangers into the galleries and lobbies. The Speaker alone has the right of granting tickets for admission to visitors and he will only issue tickets to members for their friends after having received a week's notice, so that in the meantime the antecedents of the proposed visitors can be inquired into. Turnstiles will be erected at the entrance to the galleries and lobbies. Experienced detectives will be posted at each turnstile to carefully scrutinize strangers.

Italian Expeditions.

ROME, Feb. 13.—The Fanaulla states that the third expedition from Italy to the Red Sea will leave Naples at the end of the month, and will consist of two battalions of infantry, one section of artillery and a company of engineers. The paper also says the Government is considering a project to establish a regular packet service between Naples, Suakim, Assab, Aden and Massowat.

THE ASYLUM HORROR.

Twenty-Eight Lunatics Believed to Have Perished.

PHILADELPHIA, Feb. 13.—The fire last night at the Alms House entirely destroyed that portion of the institution set apart for the insane. Of the 684 lunatics many are missing. It is now thought that twenty-eight of the inmates perished. That number of violent patients were locked in the cells on the upper floor, and could not be reached. Eight of them have been taken out and others have not been accounted for. There seems no doubt that they are dead. A report that the streets were full of escaped maniacs caused much alarm in West Philadelphia. The firemen are still working in the ruins. They are weary and half frozen, but the search for bodies is continued steadily.

PHILADELPHIA, Feb. 13.—Eleven bodies were found to-day in the ruins of the burned insane asylum. They were removed to the dead house. The burned bodies are horribly disfigured, some of them being burned to a crisp. After the day's thorough search the Alms House authorities are convinced that these eighteen burned and suffocated maniacs are all that perished, and that all the other inmates were rescued and are in custody.

WRATHFUL FIELD.

Cyrus W. Goes for His Newspaper Critics.

NEW YORK, Feb. 13.—Cyrus W. Field yesterday sent the following cable dispatch: "Please request Mr. Burt to sue at once the proprietor of Truth for libel on me, and if James Gordon Bennett is in London, and he can, under British law be sued for libel, sent through the cable of which he is proprietor and published in a New York paper of which he is editor and proprietor, do so immediately, and advise me of the steps he has taken. Wabash did not declare a dividend on any of its stock, either common or preferred, while I was director or president. The first dividend on its preferred stock was on February 10, 1881, nearly a year after I had ceased all connection with the company. At the date when this dividend was paid I was in Indiana. I never sold a share of Wabash stock in London or anywhere except in open market in New York. During the time I was President I declined to receive any salary."

Executed for Murder.

PORTLAND, Or., Feb. 13.—J. W. Murray was hanged to-day in the courthouse yard at 1:20 p. m. He passed a restless night, ate a light breakfast and received farewell calls from 9 o'clock till noon. Less than thirty people witnessed the execution. Murray walked up the steps without assistance. He showed no weakening when his arms and legs were pinioned. The trap was dropped by an electrical contrivance, and Murray's neck was broken by the fall. He had been a soldier in the rebellion, but had not joined the Grand Army of the Republic. The body, however, will be buried by a detachment of the G. A. R., though not with military honors.

Railway Legislation in Oregon.

PORTLAND, Feb. 13.—Hoult's railway restriction bill has passed both houses of the Legislature. It is almost an exact copy of Reagan's bill before Congress, so far as it relates to discrimination in rates. The bill provides that the maximum freight rates shall not be higher than the rates in January, 1885, and that passenger rates shall not exceed four cents per mile. Its effect, if the Governor signs it, will be to further cripple the Oregon and California. It will affect the Oregon Railway and Navigation Company's passenger receipts about eighteen per cent. It will not affect the Northern Pacific.

TUCSON, A. T., Feb. 13.—Private advices received here from New York, state that arrangements have been made to insure the building of a railroad from Tucson to Calabasas, A. "Say, that's a dais-y compositor," called out the editor. "Oh, be chairitable," said the local, "the dais coming when he'll know better." And then they both sharpened their pencils and hit it again.

Concurring Opinion.

SATURDAY, FEBRUARY 14, 1885.

If this country should unfortunately have a war with a foreign nation, the veterans who still survive the rebellion, North and South, could soon be mustered into an army capable of meeting the finest troops in the world. John S. Kountz, Commander-in-Chief of the Grand Army of the Republic, speaking of this veteran organization, says:

Our organization is growing rapidly in numbers and importance. There are now 6,000 posts, having a total membership of 275,000. Pennsylvania has a larger number than any other State. There are a million men living who fought for the Union, and it is thought that the membership of the Grand Army will reach half a million. There is a much larger number of Grand Army posts in the South than one might expect to find. All of the larger cities of the South have one or more posts. New Orleans has three. The main strength of the organization is in the Central States. New York should have a much larger number of posts than she now has.

The organization on the Pacific Coast is reported by those who know its condition and status to be in most excellent condition, and steadily growing in numbers. It deserves to live as long as there remain above the green sod of the land they fought for enough of the old boys to make a quorum in a single post.

To sum up California (says Professor H. B. Coney in the American Field) it has the scenery of Switzerland and Colorado, the tropical fertility of Italy, and a diversity of climate throughout its 800 miles of length possesed by no other State. It has 100 peaks of a height exceeding 10,000 feet, of which Mount Whitney, 15,056 feet, is the greatest; ten groves of big trees, scores of spouting geysers, hundreds of minerals, soda, sulphur and congress, vichy, alum, alkali, hot and boiling springs, a petrified forest, and a dozen fine watering-places. Among its hundreds of lakes it numbers ice-cold Tahoe, 10 by 22 miles in size, its surface 6246 feet above the sea—higher than Mount Washington—with its clear depth of 1700 feet, and its submerged forest. It has the record of yielding $50,000,000 of gold in one year. It cultivates millions of acres of vineyards and orange groves and orchards and grain fields; it possesses Yosemite, fit monarch of all its endless natural wonders, and, above all, it is inhabited by the biggest-hearted people on the face of the globe.

General Grant says "Shiloh was the most severe battle of the war, and but few in the East equaled it for hard, determined fighting." The Confederate strength, when the battle opened—as given by Thomas Gordon, A. A. G.—was 40,000; the Federal force engaged was never more than 25,000 during the first day, but was about 40,000 the second day. The full Confederate force was in action almost from the opening of the battle. The official report of losses was as follows: Federal killed, 1,754; wounded, 8,408; missing, 2,885; total, 13,047. "Of these 2,103 were in the Army of the Ohio." The Confederate killed, 1,728; wounded, 8,012; missing, 957; total, 10,697. General Gordon's report of the Confederate strength when they finally gave way was less than 20,000.

The Stockton and Emmet Guards, whom the Herald of that city disrespectfully dubs "Our war-scared Vets.," are the veterans "who scaled the heights of the Moquelemos without flinching a solitary flinch, although ninety-three violent settlers armed with breech-loaders were hiding in an adjacent haystack." Notwithstanding this teeming temerity, the Guards turned pale and stood unsteady on their pins when they were informed that a legislative committee was about to descend upon and inspect them. The average legislative committee is a terror.

Stephen M. White publishes in the Herald a strong, clear and candid statement and defense of his views on the subject of Assemblyman Hazard's bill authorizing County Supervisors to employ assistance for county officers in certain cases. We shall reproduce Mr. White's letter at the earliest opportunity.

An Arizona editor having got his rival in jail for assault and battery, thus gloats over him: "Our quondam contemporary is lying as usual—this time in jail. We understand that the saloon-keepers are moving heaven and earth to get him out, as their business has fallen off since he has been cooped. When he gets out, what a thirst he will have on!"

The one-man power in the National House has been relaxed to the extent that for one hour each day, during the rest of the session, that body can pass on matters to which not more than ten members object. The rule will interfere with the importance of the cranks, but will help along legislation.

Yseult, the Christian name of the young woman who shot Rossa, is said to be one of the forms of the name of the heroine in the old romance of "Tristan and Isolde," which Wagner took for the theme of a music drama. Other forms of the name are Ysolde and Ysonde.

The Illinois contest is still undecided. We should be exceedingly glad to be able to chronicle the fact that roaring Bill Morrison had not broken into the Senate from that State.

Randall has an ingenious scheme for arousing competition among shipbuilders, with a view to the improvement of the navy.

Parson Newman was at a "business dinner" in Stockton the other day, and made a business of eating the same.

Rossa's wound, like its possessor, is a humbug. He was down with it only a few days.

Dr. Kellogg

—THE—

CELEBRATED & WORLD-RENOWNED

MAGNETIC HEALER,

From New York city, is now at the Pico House, and will remain there for a limited time, curing and healing the various complicated diseases to which the human frame is heir.

Dr. Kellogg has a world-wide reputation for his extraordinary cures of difficult and chronic cases.

He is the miracle of all mortal marvels, and one of the greatest wonders of the Nineteenth century, performing cures which equal, if not surpass, the old time miracles, causing the blind to see, the deaf to hear and the lame to walk.

CONSULTATION FREE, and one hour each day will be devoted expressly to the poor of this city, or those who are unable to procure their own medicine. They will be treated free of charge. The Doctor gives away more medicine than half the others sell. Consultations at office or by mail, free and invited. A friendly talk or opinion costs nothing. When inconvenient to visit the city for treatment, medicines sent by mail or express everywhere, securely packed, free from observation. Curable cases guaranteed; where doubt exists it is frankly stated. Hours 8 a. m. to 8 p. m. Sundays, 12 to 3.

Nervous Prostration, Debility, Mental and Physical Weakness, Mercurial and other Affections of Throat, Skin and Bones. Blood Impurities and Blood Poisoning, Skin Affections, Old Sores and Ulcers, Impediments to Marriage, Stunted Development, Rheumatism, Malaria. Especial attention to complicated, Difficult, severe and SURGICAL cases. Piles cured WITHOUT USING KNIFE.

Diseases from indiscretion, excess, exposure or indulgence, producing some of the following effects: Nervousness, Debility, Dimness of Sight, Perverted Vision, Defective Memory, Pimples on the Face, Aversion to Society of Females, Want of Pleasure in Life, Want of Ambition, Unfitness to Marry, Melancholy, Dyspepsia, Headache, Restlessness, Loss of Spirits, Pains in the Back, etc., are treated with unparalleled success, safely, privately.

Catarrh, Throat, Nose, Lung Diseases and ASTHMA. Liver Complaints.

It is self-evident that a physician paying particular attention to a class of cases attains great skill, and physicians in regular practice all over the country, knowing this, frequently recommend cases to this oldest office in America, where every known appliance is resorted to, and the proved good remedies of all ages and countries are used. A whole house is used for office purposes, and all are treated with skill in a respectful manner; and, knowing what to do, no experiments are made. On account of the great number of cases applying, the charges are kept low, often lower than is demanded by others. If you secure the skill and get a speedy and perfect life cure, that is the important matter. Leucorrhœa cured in four treatments. It is the most troublesome disease known to the female sex.

Cancer Cured without pain and speedily. No cutting done.

Tapeworm removed or no charge. Many persons suffer greatly from the effects of tapeworm who doctor for Dyspepsia, Indigestion, Nervous Prostration, Palpitation of the Heart and a Dry Cough, in consequence of the parasite irritating the throat.

THE SYMPTOMS OF TAPEWORM

Are characterized by restlessness at night, sickness of the stomach, vomiting, convulsions, epileptic fits, faintness, stupor, loss of memory, gnawing sensation in the stomach, pains in the side and back, dry cough, a voracious appetite at one time and a loathing of food at another, a choking sensation when lying down, disagreeable breath, face flushed, nose contracted, heaviness of the eyes, bad digestion, stomach bloated at times, emaciation of the body and great nervous debility and dizziness of the head. Some persons may have all the above symptoms while others only have a part of them, and some will have a tapeworm for a long time, and yet never pass any joints or pieces, which is the only positive evidence of its existence. During a residence of eight years in New York city he

Cured Over 6000 Patients.

A large portion of whom had previously been given over by ordinary practitioners as incurable. His system of treatment is peculiar to himself; by it the vital forces become equalized; no pain is caused; no poisonous medicine given, and no surgical operation performed. The most hopeless cases taken and cured after all else has failed.

CONSULTATION FREE.

Can take a tapeworm in two hours complete. Will prove to you, free of charge, as to whether you are afflicted with tapeworm or not. No charge for first lot of medicine.

Do not fail to visit Dr. Kellogg,

"The Wonder,"

After all others have failed to cure you.

The most obstinate diseases succumb to the Doctor's unlimited skill.

My diploma hangs on my office wall for inspection of patients. Patients will find the Doctor a gentleman, socially as well as professionally.

It is sometimes wise to follow Oliver Wendell Holmes's example, and not be as funny as you can. The Evening Depress talks about Lydia Pinkham, "the celebrated hair restorative advertiser," in a way which shows that the able depressor didn't know the business of a woman who was for years the foremost advertiser in the world; nor the fact that she has been dead a couple of years.

A REPULSIVE CRIME.

The Clerk of San Bernardino County a Ravisher.

Particulars of the shameful conduct of W. F. Holcomb, Clerk of San Bernardino county, state that he enticed N. B. Hale's daughter—a child not yet twelve years old—into the clock-tower of the court-house, where the horrified father found them. The state of Holcomb's clothing betrayed his designs, and the little girl confessed that he had made felonious attempts. An examination by surgeons proved that he had not succeeded. Next morning the popular excitement over this stunning discovery took form. Without call, but as if by common consent, the citizens poured into the court-house.

Shortly after nine o'clock the Supervisors' room was filled, and the meeting organized, Judge Rolfe being elected chairman. The matter was fully discussed, and the following resolution passed unanimously:

Resolved, That the people of San Bernardino county demand the immediate resignation of W. F. Holcomb as County Clerk, and that a committee of five be appointed by the chair to convey this demand to him; and *further*, that he be given twenty-four hours to leave the county.

This resolution was carried, and the following gentlemen were appointed as such committee: H. C. Rolfe, chairman; J. D. Bethune, H. M. Willis, W. A. Harris, F. T. Perris and James Waldrip.

Hon. Byron Waters then moved that twelve heads of families be appointed to act as a committee for the good order of the town, and to draft ordinances for that purpose, which was carried.

The committee then waited on Holcomb and told him the sense of the community, and the resolution of the meeting. He denied the charges brought against him, and stated that he would not leave, but would remain and fight it out.

Trouble may be expected, for the citizens are terribly in earnest. Holcomb is a man of family, advanced in years, and that he was respected and trusted is shown by his recent election to one of the principal county offices. His bondsmen have withdrawn from his official bond. There is likely to be a stirring time in San Bernardino, for there are intimations that Holcomb's crime has imitators, and the people intend to ferret the matter out.

Some Views of Rev. Bresee.

[The following communication, received Thursday, has not found room for appearance heretofore. The writer, unable to postpone the pleasure of seeing himself in type, rushed over to the Express office and inserted the article in that never-crowded sheet. His letter is preceded by the allegation that it was refused publication by the TIMES; which allegation was "too previous" by far, having no foundation in fact. The Reverend Bresee should endeavor to practice the virtue of self-containment:]

To the Editor of the Times—MY DEAR SIR: I read this morning in the TIMES, with surprise and sorrow, the following statement: "The Silvas and Martinez necktie sociable will be the first legal hanging that has taken place in the county in a generation. Master-of-Ceremonies Gard is already half pestered to death by applicants for admission to the picnic."

I presume that this was written by some employee who had little idea of its hideousness. But for fear it may be passed by without protest, I take it upon myself the work of the critic.

To make fun of crime, or to make the results of criminality the butt of a joke or witticism, seems to me to be little less than criminality itself. The lightness with which crime and its resultant punishment is treated, especially the crimes that grow out of the drinking traffic, is one of the things that stands in the way of arousing the public conscience to their enormity, and abets the crimes it chronicles. But to make fun, or to attempt it, of two poor criminals who are under sentence of death, to make light of the awful tragedy of hurrying their spirits into eternity, to caricature as a "necktie social" and "picnic" the most solemn and terrible event which the law can bring about as its vengeance upon evil doers, as a warning to community, and to deter men from wrong, has a guiltiness about it that savors of absolute incapacity to comprehend the facts, or a depravity that cares little for human feeling and the welfare of society.

These men doubtless have family and social relations, who weep with a bitterness too deep for utterance in this hour, and all the more bitterly because they feel that an outraged law must be vindicated and society must approve. But is it necessary to add by coarse and ribald jokes to their already unbearable sorrow?

It is a sad reflection upon our civilization that there are many who have the brutal instincts to desire to see their fellow beings slain. It shows that they are no further advanced in morality and refinement of feeling than the multitudes that filled the theaters of Rome to see the gladiatorial contests. The people woo seek amusement by *death agony* are certainly not far advanced in civilization.

I think it very generally regarded, by those who have thought upon the subject, that public executions tend rather to increase than repress crime, and I hope, if these men must be executed, that it will be strictly private. That it will be no public "picnic." And I hope the matter will be treated by press and people with the solemnity that the awfulness of the fact, and terribleness of crime demand. Yours very truly,

P. F. BRESEE.

[The reverend censor has now had his "lick" at the TIMES, and we trust tha he is satisfied, and will have the candor to admit that he has not been denied a hearing. Strangely enough, the sympathetic gentleman has omitted all allusion to the anguish of the "family and social relations" of the victim. He should endeavor to practice the virtue of consistency.—ED. TIMES.]

Wretched Roads.

A reader of the TIMES sends it a lively communication on the roads of the county, which lack of space alone keeps out of type. Commenting upon the wretched condition of our highways, he justly says the fault lies primarily in the system which makes it possible for dishonest overseers to get paid for work which they do not perform; that work on the roads should be by contract, no pay until approved by a competent committee. To turn the road tax over to an individual and trust him to expend it properly, with no guarantee of faithful performance, is poor business. He complains that no more work is done now than formerly on the roads from this city to La Cañada and Sepulveda, though the population along them has quadrupled in the last two years, and pays four times as much road tax as before. More tax was collected there this year than last, and less work done. The Verdugo Cañon road, between the railroad and the Verdugo postoffice, is two miles the shortest route to La Cañada, but its condition is so bad in times of mud that few people use it at all. There was more work done on that road last year by citizens working out their tax than this year by the overseer to whom the whole tax was paid over. The Supervisors should not leave the expenditure of this money to the discretion and honesty of any one man. As a remedy to the present system, our correspondent suggests that before the accounts of the district road overseers are audited, a committee, appointed by the Supervisors, should inspect the work in each district, estimate its value and compare with the overseer's report. He thinks it would do little good to have smaller road districts, unless more honest work can be got out of the overseers, which is the essential that the Supervisors must attend to. We shall never have good work done upon the roads until better proof of the work is required than at present.

The "Times" Portrait Gallery.

The excellent portrait of Miss Eva Mackay—now Princess Colonna—published in yesterday's TIMES, will be followed to-morrow by faithful likenesses of El Mahdi and General Gordon, with carefully prepared sketches of both. The public appreciates this presentation of notable faces, and readily "catches on" to the cause of the Slow Freight's hot box. It doesn't cost so much to hoot at an engraving as it does to buy it.

CHEEKY CRACKSMEN.

Burglary of J. B. Cohn's Store, and Fortunate Interruption of the Thieves.

The clothing and furnishing store of J. B. Cohn, corner of Los Angeles and Main streets, was entered by enterprising and audacious rascals between the hours of 1 and 2 o'clock Friday morning. At 1 o'clock Officer Massey, of the merchants' patrol, passed the store, but saw nothing out of the way. Officer Jones, of the police force, also noted nothing wrong. About half an hour later Massey returned and found the side shutter of a show window down—it was not fastened—and the glass broken. He called Officers J. R. Smith (of the patrol) and Jones, and leaving them on guard went for Mr. Cohn, who came at once. The thieves, however had decamped and did not return, though a force watched all night. They had removed the shutter, broken the small side window, which is less than a foot wide, and the inner window, and crawled in. They were persons of good taste, for they paid no attention to the less valuable goods in the department first entered, but struck for the other room and tackled the best in the store. The finest pantaloons and blankets they proceeded to at once, and even picked out the most valuable jewelry from the showcase. A fine silver watch belonging to Mr. Cohn was taken, but the cheaper Elgin time-keepers on each side of it were undisturbed. Twenty or more of the most costly gold rings were also taken from the showcase. Six pairs of dark pants, costing $7 per pair, and six blankets, red and blue, at about the same figure, along with the jewelry, comprise most of the stolen articles, the total value being from $150 to $200. The cracksmen had also filled the bay-window, through which they entered, with a similar assortment of goods ready to be carried off. This latter lot amounted to about $1,000, and would doubtless have been gone also in a few moments more. Indeed, the arrival of Officer Massey was most opportune, for the thieves had the store at their mercy; and if furnished with a wagon, they could readily have carried off several thousand dollars' worth of goods. Mr. Cohn feels himself lucky that he lost no more. The sound of breaking glass and a laugh was heard about 1 o'clock by a woman who sleeps over the store, but she took it for the smashing of a bottle by some beer-imbiber. No clue to the thieves has been discovered. The job looks a little too elaborate to be the work of tramps, and is at all events attributable to some one well posted on the store and its contents.

SANTA ANA.

NEWS AND GOSSIP OF THE WEEK.

Correspondence of the TIMES.]

SANTA ANA, Feb. 11.—Mrs. Dr. H. I. Parker lost by death her husband and father both in the same week.

Tom Smith, of Phœnix, Arizona, is spending a few days with his father near Tustin. He brought his daughter up to Tustin to be educated. He reports times as very dull in the Territory.

Coyotes are very numerous hereabouts, and are becoming unusually bold, making frequent depredations upon chicken yards and piggeries. They are getting ready for the prospective bounty for their scalps.

The absence of rain for the past few weeks necessitates some irrigation, and already the ditches are delivering to the ranchers the water supply.

Fred Burgess and Captain Jennings are building nice cosy houses on Fourth street, for family residences.

Dr. Burgess, of this place, left this week for a professional trip to Arizona.

The Presbyterians are talking of building a church house in the near future.

A brother of Judge Humphrey, who has been spending some weeks with the Judge, left this week for his home in Kentucky.

Strangers are abroad in our valley, and are delighted with our climate, our productions and our soil.

Much talk is again indulged in about a cannery. It will probably end in talk.

NEWTON.

Los Angeles Improvement Company.

Articles of incorporation for a company of the above title were filed with the County Clerk yesterday. The capital stock is $200,000, in $20 shares. Following are the Directors for the year: J. M. Thompson, Edward A. Hall and W. T. Newhall, San Francisco; C. H. Howland, Ralph Rogers, Jesse Yarnell, W. E. Rogers and H. C. Wetmier, of this city. The company, whose nature is indicated by its title, is the one which is pushing the Second street cable road matter.

A Match Made.

A match was made in the Evening Express office yesterday afternoon between Palmer and Manning, to fight to a finish, Marquis of Queensbury rules, with such gloves as the law allows. The money is up and the fight will take place within two weeks. Again the iron (scoop) sinks a parasang into the soul of the Xpress.

[The Day They Celebrate.

No, it wasn't a party a cowboys "taking the town," last night, as some of our newly-arrived Eastern visitors may have inferred. It was simply Johnny Pig-tail, individually and collectively painting the town red—with the giddy gong and festive cracker de snap—in honor of the Chinese New Year.

Electricity and Magnetism the New Means of Cure.

Dr. E. Robbins, the celebrated Australian Electro-Magnetic Healer, Larronde Block, corner First and Spring streets, entrance on First street, after several years' experience in the Australian colonies, San Francisco, Salt Lake City, Denver and two years in this city, has decided to permanently locate here, where he has performed so many wonderful cures without the aid of medicine. His rooms are crowded daily with patients anxious to get the benefit of his power over so-called incurable diseases. Dr. Robbins is patronized by many of our leading citizens. He also diagnoses diseases without explanation from the patients, free of charge, and has fitted up the Institute at considerable expense with Dr. Hoffman & Palmer's celebrated electro-therapeutic bath, which is pronounced by eminent physicians to be the greatest discovery in medical science of modern times; also other medicated baths, with the latest improvements in electrical instruments for administering Faradic, Galvanic and Static electricity.

NEW TO-DAY.

Notice to the Public.

I TAKE THIS METHOD OF INFORMING the public, and especially those interested as policy-holders in fire insurance, of the just, equitable and prompt manner in which the

Phœnix & Home Insurance Companies,

Through their agents,

MILES BROTHERS,

of this city, have settled and paid in full the loss sustained by me in the fire which occurred at the Boyle Heights Hotel on Saturday night last. It gives me pleasure to make this public announcement, commending to the insurance public the Phœnix and Home Fire Insurance Companies, and to give evidence of the fact of their stability and high standing in face of the calumny so freely circulated by representatives of companies composing the so-called "compact," with which monopoly the Phœnix and Home Insurance Companies are not connected.
